PERSONAL PROJECTS

Web Portfolio:

- Personal Portfolio on my development work.
- Demonstrated my skills in frontend development using HTML, CSS and JAVASCRIPT.
- <https://github.com/stormbreaker-123/PORTFOLIO>

Death Event Predictor By Using ML Model:

- This project consists of a dataset containing different human body factors.
- I had to first make the data suitable to fit in a simple predicting ML model.
- It will be predicting the person's death by calculating the probability of death by using some criteria like age, anaemia, diabetes, ejection_fraction etc. in the ML model.
